ABOUT US

At Nikunj Hydraulics, we are dedicated to delivering expert solutions in the field of hydraulics. Established in 2019 and based in Delhi, we specialize in the sales, servicing, and repair of hydraulic piston pumps, motors, and spare parts. Backed by over 7 years of experience, we have emerged as a reliable partner for both domestic and international clients.

We are proud to be one of the leading suppliers of hydraulic products from top global brands, including Rexroth, Danfoss, Parker, Kawasaki, Vickers, Yuken, Linde, Eaton, Nachi, and many others. Our services extend across various industries such as construction, agriculture, marine, mining, recycling, manufacturing, and more.

Whether it's repairing, new installations, or AMC (Annual Maintenance Contracts), we provide customized hydraulic solutions to meet your operational needs efficiently and cost-effectively.

With a commitment to quality, reliability, and customer satisfaction, Nikunj Hydraulics continues to power industries with precision-engineered hydraulic systems and services.

Our Mission

At Nikunj Hydraulics, our mission is to deliver reliable and high-performance hydraulic solutions through expert repairs, quality products, and exceptional service. We are committed to reducing downtime and enhancing productivity for our clients by providing efficient and cost-effective support across various industries.

Our Vision

Our vision is to be a trusted name in the global hydraulic industry by consistently delivering top-tier services and products. We aim to lead through innovation, expand our reach, and build long-term relationships by exceeding customer expectations and setting new standards in service excellence.

Our Products

At Nikunj Hydraulics, we offer a wide range of hydraulic pumps, motors, and spare parts from leading global brands. Our products are built for durability, high performance, and compatibility across various industrial applications.

Hydraulic Piston Pumps

We offer a wide range of Hydraulic Piston Pumps that are engineered for high efficiency, durability, and performance in demanding hydraulic applications. These pumps are designed to operate under extreme pressure conditions and are available in various displacements and configurations to suit different industrial needs. Whether for mobile machinery or stationary equipment, our piston pumps deliver consistent flow, optimal energy efficiency, and long service life.

Hydraulic Motors

Our Hydraulic Motors are built to handle heavy-duty operations across multiple sectors including construction, mining, marine, and agriculture. Known for their robust design, high torque output, and smooth performance, these motors ensure maximum power transmission even under continuous load conditions. We supply both axial and radial piston motors, gear motors, and vane motors that are suitable for a variety of hydraulic systems.

Hydraulic Pump Spare Parts

We provide a complete selection of Hydraulic Pump Spare Parts that are either OEM-certified or perfectly compatible with top international brands. Our spare parts include pistons, cylinder blocks, valve plates, shafts, and seals—meticulously engineered for precision and reliability. These parts are essential for maintaining pump efficiency, preventing system failures, and reducing overall maintenance costs.

Hydraulic Motor Spare Parts

Our inventory of Hydraulic Motor Spare Parts is designed to meet the repair and refurbishment needs of various motor models. From bearings and seal kits to rotors, gears, and valve plates, we offer only high-grade, performance-tested components. These parts help extend the service life of your hydraulic motors and ensure optimal functionality, even in the most rigorous operating environments.

Our Services

At Nikunj Hydraulics, we provide a complete range of hydraulic services tailored to keep your equipment running smoothly, efficiently, and with minimal downtime. Our experienced technicians are equipped to handle a variety of hydraulic systems across multiple industries.

Annual Maintenance Contract (AMC)

Our AMC services are designed to keep your hydraulic systems running smoothly all year round. With regular inspections, preventive maintenance, and scheduled servicing, we help you minimize breakdowns, reduce repair costs, and ensure consistent system performance.

Repairing

Our specialized repairing services cover a wide range of hydraulic piston pumps and motors. We perform detailed diagnostics, replace damaged or worn-out parts, and conduct rigorous testing to restore equipment to factory-level performance. We service major global brands and guarantee long-lasting results.

New Installation

We offer complete installation solutions for hydraulic pumps, motors, and systems tailored to your operational needs. From system planning and setup to calibration and testing, our team ensures your hydraulic equipment is installed with precision and performs at peak efficiency from day one.

HYDRAULIC SOLUTIONS FOR MINING EQUIPMENT

Hydraulic Pumps, Motors, Gearboxes, Main Control Valves, Cylinders & Parts

We are one-stop shop for hydraulic components, repairs, rebuild units, new replacement parts, maintenance parts and production parts for all hydraulic.

HYDRAULIC PUMP REPAIRS

WHAT YOU NEED TO KNOW...

HYDRAULIC SOLUTIONS FOR CONSTRUCTION EQUIPMENT

Hydraulic Pumps, Motors, Gearboxes,
Main Control Valves, Cylinders & Parts

We're your one-stop shop for
hydraulic components—supplying
reman units, new replacement units,
replacement parts, and providing
top quality repair services.

OUR BRANDS

Let's Power Your Hydraulic Needs

At Nikunj Hydraulics, we don't just supply parts — we deliver performance, precision, and long-term reliability. Whether it's a repair, new installation, or maintenance support, we're here to keep your operations running smoothly.
